PROFESSIONAL SUMMARY

Curious and execution-driven developer with a strong problem-solving mindset and a keen interest in cybersecurity. Passionate about building secure, scalable, and real-world applications, with the ability to identify vulnerabilities and design efficient solutions.

EDUCATION

B.Tech in Computer Science (Cybersecurity), GLA University, Mathura	2024-2028
Senior Secondary Education, Mahatma Hansraj Modern School , Jhansi	2022-2024
Secondary Education, ST. Mary's Sr. Sec. School , Gursarai	2020-2022

TECHNICAL SKILLS

- **Security Domains** : Web Exploitation , Reverse Engineering , SOC Operations , Network Pentesting , Threat Intelligence , Open Source Intelligence
- **Tools** : BurpSuite , AutoSpy , Nmap , Wireshark , Ghidra , IDA Pro, Metasploit , Scapy , radare2, Snort,Splunk
- **Programming Languages** : Python , C , Java , Django , Flask , SQL , Bash
- **Platforms** : Linux , Docker , Git , Github

EXPERIENCE

Pentesting Intern - ShadowFox Sep 2025-Oct 2025

- Executed manual and automated penetration tests using Burp Suite, Metasploit, and Nmap
- Identified vulnerabilities, assessed impact, and documented remediation strategies

Cyber Security Consultant - The Angaar Batch June 2025 - Present

- Conducted security assessments and penetration testing for a full-stack startup application
- Identified and reported vulnerabilities (e.g., XSS, authentication flaws, misconfigurations)
- Provided remediation strategies and worked with developers to improve application security
- Performed manual testing using tools like Burp Suite and Nmap
- Contributed to strengthening overall security posture of the application

PROJECTS

HackItUp - Elite CTF Platform

- Architected a secure full-stack CTF platform using React and Django with real-time WebSockets
- Actively used by 875+ users, with automated scoring and real-time leaderboard system
- Implemented MFA-based authentication and secure flag validation mechanisms

PhishReconn - Phishing URL Detector

- Developed a phishing detection system using static, dynamic, and API-based threat intelligence
- Detects malicious URLs by analyzing patterns, behavior, and external security data sources

CERTIFICATIONS

- Certified Network Security Professional(The Secops Group)
- Certified Blue Team Practitioner(The Secops Group)
- Certified Junior and Senior Web App PenTester(Sturtles Security)
- Certified Cloud Security Practitioner-AWS(The Secops Group)
- Cyber Security Fundamentals | Network Security Fundamentals (PaloAlto)

ACHIEVEMENTS AND LEADERSHIP

- Pentest showdown Winner — National level CTF Competetion organised at GLA University
- Top 9% on TryHackMe—Ranked among global performers through advanced Offensive and Defensive labs.
- Corporate Relations Dy.Head,Cyberonites Club — Led technical training, CTFs,cybersecurity awareness and Corporate Relations.
- Ranked in the Top 15 in CTFs—HACKIITK CTF IIT-Kanpur, EY-DSCI CTF.
